\*Includes estimates

\*\*The register does not include motor caravans that are registered and de-registered during the year ("temporary cancellations"). In addition, motor caravans may be registered as passenger vehicles, trucks or office vehicles, which are not included in the statistics.

\*\*\*The statistics do not include non-registered caravans that are permanently parked at camping sites. Therefore, the CIVD estimates that the actual number of vehicles in use in Germany is more than 900,000 vehicles.
